I. Scope and Purpose
This course is an introduction to international politics. It surveys major issues in international relations post-World War II from both theoretical and empirical perspectives. Some of the topics we will cover include: the causes of interstate war; ethnic conflict; foreign policy decision-making; economic development; the North-South gap; international trade; globalization; economic interdependence; the environment; population; the UN and other international organizations; and international law. Rather than focus extensively on specific countries, we will focus on countries’ relations with each other.

The goals of this course are twofold. First, it aims to provide students with a solid understanding of the basic facts about international relations. Second, it intends to help students develop analytical and research tools for thinking about important questions in world politics, regardless of the issue or the countries involved.

II. Course Objectives
1. To explain basic facts about world politics from WWII to present.
2. To identify, define, and apply fundamental theories of international relations.
3. To understand the historical development of international politics.
4. To read and analyze the facts and circumstances regarding important topics in international relations.
5. To evaluate and examine current and historical events in terms of international relations.

1 I believe the phrase “Office Hours” implies that students are interrupting an instructor’s time in the office. So, I prefer to call my regularly available time for students as “Student Hours,” because these hours are, after all, reserved for you and your needs. When you come to visit me during these times, know that I have reserved this time for students. You are not interrupting my work. Feel free to come with a friend or two. Also feel free to come by yourself! Whatever you like—these are, after all, your hours.
Through thoughtful engagement with course materials, regular lecture and section attendance and participation, and completion of assignments, students will develop the following capacities:

- verbal communication and presentation
- expository and analytical writing
- critical analysis of arguments and concepts
- teamwork and flexibility
- independent research

III. Assignments

A. Lecture Attendance and Participation (5%)
Attendance and participation in lectures is mandatory. Lectures will be interactive and often involve small-group work. I will also call on students regularly (twice over the course of the semester) to answer questions, ask questions, and share their insights. If students are absent on days that they are called on, their lecture participation grade will be negatively impacted. Students who participate without being called on will be noted, and their attendance scores will be positively impacted.

B. Lecture Quizzes (20%)
25 quizzes will be administered over the course of the semester during lecture. The quizzes will take three forms:

1) The quiz will be administered at the start of class and assess students’ understanding of the day’s assigned readings and the prior class’ lecture.
2) The quiz will be administered in the middle of class and assess students’ understanding of material covered up to that point in lecture.
3) The quiz will be administered at the end of class and assess students’ understanding of the day’s material.

As long as you attend, and pay attention in class and do the reading, you should have no problem doing well on these quizzes. These quizzes should help your grade.

There will be days when more than one quiz is administered during lecture. There will also be days when no quiz is administered. Quizzes will not be announced in advance. The lowest two quiz grades will be dropped when calculating final grades. There are no make-up assignments for missed quizzes.

C. Discussion Section Attendance and Participation (15%)
Attendance and participation in weekly discussion section is mandatory. Your Teaching Assistant will hand out a detailed section syllabus and review specific guidelines and expectations for discussion section with you the first day you meet.

D. Group Presentations in Discussion Section (10%)
Over the course of the semester, students will work in groups of 2 to deliver one group presentation about a current event in international relations. Students will sign-up for presentation dates during the second meeting of their discussion section. The presentation topic should be chosen and approved by their TA at least TWO DAYS before the actual
presentation date. Groups are strongly encouraged to meet with their TA to discuss the topic they want to present, and how they plan to present it. The presentation has two parts:

1) Each group will select two news articles from reputable sources (The New York Times, BBC, Al-Jazeera, The Washington Post, The Wall Street Journal, etc.) that are about the topic. These articles should be emailed to your TA at least TWO DAYS before the presentation date, so that s/he can distribute them to students to read.

2) Each group will provide an approximately 5-10 minute presentation of the topic, explaining the issue at hand, why the event is important, and what course material illuminates about the issue. The group will also provide 2-3 questions for students to consider about the current event, helping extend the conversation. Each member of the group should speak during the presentation. The presentation format is up to you. You can be as creative as you want!

C. In-Class Midterm Exam (20%)
An in-class midterm exam will be administered on Thursday, March 8, during class time. Details about the exam format and content will be distributed in class.

D. Take-Home Final Exam (30%)
Final exam questions will be emailed to students, and exams must be uploaded to Canvas as Word documents only.

Final questions: emailed after lecture on 4/26; due TBA (exam time)

IV. Grading
Grades will be assigned based on the following scale:

A: 93.5 or greater
A-: 89.5-93.4%
B+: 86.5-89.4%
B: 83.5-86.4%
B-: 79.5-83.4%
C+: 76.5-79.4%
C: 73.5-76.4%
C-: 69.5-73.4%
D+: 66.5-69.4%
D: 63.5-66.4%
D-: 59.5-63.4%
F: 59.4 or below%

Prof. Jones supervises all gradings, sets grading guidelines, and reviews TA performance. Any student who wishes to challenge a grade must wait at least 24 hours after the assignment was returned before sharing their concerns. After 24 hours have passed, the student must discuss the concern with the TA who graded the exam. If the student remains unsatisfied after this meeting, the student must write 250 words explaining the reason for challenging the grade and submit this to Prof. Jones who will then review the work in question. Please note
that a grade change is extremely unlikely, and that Prof. Jones reserves the right to lower a grade as well as raise it.

V. Late Assignment Policy
As a rule, late work is not accepted. Extensions may be granted with sufficient notice.

VI. Course Materials
Students in POLS UN 1601 are expected to acquire the following textbook, which is available for purchase at Book Culture (556 West 112th Street, between Broadway and Amsterdam). It is also available on reserve at both Butler and Barnard College libraries:

The textbook readings are marked by “GP” throughout the schedule. Relevant news articles and academic journal articles will also be made available on the course website in PDF form. These additional readings are noted in the below course outline by ***.

VII. Course Expectations
You can expect that I will come to class prepared, be available during student hours or another decided appointment time, answer your questions via email within a 24 hour period Monday-Friday, provide useful feedback on your assignments and performance, return written work in a reasonable amount of time, and provide clear instructions and guidelines for all assignments.

As students, you are expected to come to class prepared (having done the readings and with the articles/textbooks read), to be attentive and respectful in class, to check your email at least daily during the week (M-F), to understand the course expectations, and to adhere to all policies laid out by the University and in this course syllabus. Please do not hesitate to contact me if you have any questions regarding this.

Finally, I strongly discourage the use of electronic devices in this class. Numerous studies have shown that students learn better when they are handwriting their notes. Nonetheless, if you choose to use a laptop during lecture, you are required to sit on the left side of the classroom so as not to distract non-laptop/tablet using students.

VIII. Academic Accommodations
If you are a student with a documented disability and require academic accommodations, you must visit the Office of Disability Services (ODS) for assistance. Students requesting eligible accommodations in their courses will need to first meet with an ODS staff member for an intake meeting. Once registered, students are required to visit ODS each semester to set up new accommodations and learn how to notify faculty. Accommodations are not retroactive, so it is best to register with ODS early each semester to access your accommodations. If you are registered with ODS, please see me to schedule a meeting outside of class in which you can bring me your faculty notification letter and we can discuss your accommodations for
this course. Students are not eligible to use their accommodations in this course until they have met with me. ODS is located in Milbank Hall, Room 008.

IX. Student Wellness
It is important for undergraduates to recognize and identify the different pressures, burdens, and stressors you may be facing, whether personal, emotional, physical, financial, mental, or academic. We as a community urge you to make yourself--your own health, sanity, and wellness--your priority throughout this term and your career here. Sleep, exercise, and eating well can all be a part of a healthy regimen to cope with stress. Resources exist to support you in several sectors of your life, and we encourage you to make use of them. Should you have any questions about navigating these resources, please visit these sites:

X. Barnard Honor Code
All assignments in this class are to be completed in accordance with the Barnard Honor Code, with expectations outlined in the following paragraph. Any student who violates the Honor Code will face dean’s discipline at her or his home college, and will earn a failing grade in the course.

Approved by the student body in 1912 and updated in 2016, the Code states:

*We, the students of Barnard College, resolve to uphold the honor of the College by engaging with integrity in all of our academic pursuits. We affirm that academic integrity is the honorable creation and presentation of our own work. We acknowledge that it is our responsibility to seek clarification of proper forms of collaboration and use of academic resources in all assignments or exams. We consider academic integrity to include the proper use and care for all print, electronic, or other academic resources. We will respect the rights of others to engage in pursuit of learning in order to uphold our commitment to honor. We pledge to do all that is in our power to create a spirit of honesty and honor for its own sake.*

This syllabus is a general plan for the course; changes may occur.
